UNT Health FORT WORTH
COLLEGE OF BIOMEDICAL AND TRANSLATIONAL SCIENCES

Specialized Master of Science in
Biomedical Sciences (Clinical Research Management)

M.S. in Clinical Research Management Program Learning Objectives and Outcomes by Year

Program Learning Objectives/Competencies

PLO1. Biomedical Scientific Knowledge & Problem-Solving Skills (direct)
PLO2. Communication of Knowledge: Written and Verbal (direct)
PLO3. Use of Scientific Methods for Experimental Design or Research and Analytic Skills (direct)

Program Objectives

PO1. Student Attrition

Assessment Outcomes

Assessment	2023-2024	2024-2025	2025-2026	2026-2027	2027-2028	2028-2029	2029-2030
Direct Learning Assessment Targets							
PLO1 -Greater than 75% of students registered for BMSC 5300, BMSC 5206, BMSC 5302, BMSC 5207, and BMSC 5301 received a grade of B or A in each of these classes.	100% of the students met the stated goal						
PLO2 and PLO3 - Greater than 80% of CRM students will achieve "meets expectations" or "exceeds expectations" on their research proposal for the biomedical scientific knowledge competency.	100% of the students met the stated goal						
PLO2 and PLO3 - Greater than 80% of CRM MS students will achieve "meets expectations" or "exceeds expectations" on their final thesis defense for the biomedical scientific knowledge competency.	100% of the students met the stated goal						
Indirect Program Assessment Targets							
PO1 - Less than 25 % of students will withdraw from CRM program	Withdrawal rate 4.76%
